

Let us Help You Build Your Dream Home the Right Way!

Do it Right the First Time with this Easy Steps!

STEP 1:
Set a Budget

Too many people start with a floor plan and land and build a home that they hate every day because they can't afford it. If you set a budget of what you want to spend up front you will enjoy your dream home for years to come.

STEP 2:
Find a Lot

We have access and knowledge about many areas in WI and Upper MI. Or maybe you have been holding on to that dream lot until the time was right to build that DREAM home.

STEP 3:
Design Your Home

Find your floor plan: We have a great team of architects and designers that we can refer to you to help you design a unique, custom crafted, home of your dreams. We also have many floors plans that can get the ideas flowing.

STEP 4:
Pick Your Finishes

We have our own design center that can help you select the colors and options you have always wanted. We can also set appointments with specific suppliers to offer you unique and one of a kind selections to make a house your HOME.

STEP 5:
Meet with your Builder

All American Dream Homes has grown up building homes and has the attention to detail that you seek in your builder. We will discuss the build process and what will be involved in building your dream home. We will discuss time frames and make exact notes on your home plans to make sure your home is built right the first time.

STEP 6:
Home Construction

Relax and enjoy seeing your designs and dreams come true!

STEP 7:
Home Orientation & MOVE IN!

WE will walk you through your new home and explain the latest in home features to make sure you enjoy all aspects of your new home. The rest is up to you...
